

About Thermal Technologies

Our attractive heated panels create a channel for water to drain from the roof, preventing ice blockages and water damage.

We Stop Ice Dam and Icicles

We design and manufacture innovative, total de-icing products that look great year-round, are easily installed, and are guaranteed to keep your home and family free from the dangers of ice dams and icicles.

The 4 Major Benefits of Installing De-Icing Products from Thermal Tech

1. They protect your investment
2. They save you money
3. They provide convenience
4. They provide safety

We invite you to browse through our site and learn more about these benefits along with the details about our innovative home and business de-icing products. You don't have to worry about ice dams and icicles anymore! Contact Thermal Technologies TODAY.

Heated Roof Panels It's what we do.

As one of the nation's leading manufacturers of innovative and high quality rooftop de-icing products, we make problems with ice dams and icicles a thing of the past for homes and businesses all across America

ICE DAMS THAT BUILD UP ON OVERHANGS AND AROUND GUTTERS CAN RESULT IN EXTENSIVE DAMAGE TO YOUR STRUCTURE AND ENDANGER THE SAFETY OF YOUR FAMILY OR CUSTOMERS.

At Thermal Technologies, we create custom solutions that will prevent and get rid of ice dams and icicles on your home or building FOREVER. Adding more insulation, ventilating an attic, installing zig-zag cables, application of heat tape, or even putting on a new roof will not get rid of ice dams: it just puts a band-aid on the problem, and the ice dams will always come back.
